As we see the school children go tripping by, with their slate and books under their arm, it reminds us that we were—O! phew, give us something new.

Those two young men from Salisbury were most beautifully "left" Sunday. It is too bad boys, but you can't always tell when you're going to get the bounce.

Our readers will regret the severe illness of Mrs. A. G. Brown, of Muscle Fork township. She has been very low for some time, and it is feared she cannot recover.

One or two business men can not do all the advertising necessary for a town; all should join in and contribute their part towards building up a permanent trade.

The latest addition to the literary world is the novel "My Heart's in the Highlands," which we consider is much better than having your liver in the hands of a doctor.

The wife of Maj. Finks, of Fayette, is quite ill, and his three children down with scarlet fever. The Major has just been elected to the legislature by Howard and Democrats.

A Huntsville lady, hearing a great deal about "preserving animal leaves," put some out, but afterward found a neighbor they were not fit to eat, and she might as well have thrown her sugar away.

Occasional feeding of salt is very important to the health and vigor of animals. One-half of the ash of animal blood consists of salt, without which the vital fluid cannot be in a natural or healthy state.

Mr. J. C. Barkley, of the Chillicothe Constitution, was in town this week attending circuit court, and gave us a friendly call. Mr. Barkley is a pleasant gentleman, and we consider the Constitution one of our best exchanges.

The Brownsville Herald says a long train of movers' wagons passed through that city last Thursday, eastward bound, two of the wagons bearing these words: "Been to Kansas—busted for good."

The first quarterly meeting of the Keytesville circuit will be held at Prairie Chapel, December 14th and 15th. A full attendance of official members is especially requested, and the public generally invited.

On the 3d inst., while engaged in felling a tree, Mr. Vol. Myers, of Sullivan county, met with an accident. A limb fell, striking him on the temple and causing his death in about four hours thereafter.

One day last week while Mr. Martin Mahurin, of Bowman township, Sullivan county, was engaged in tearing down an old house on his premises, it suddenly gave way and fell on his little son, breaking one of his legs.

John Brown Coulhart went to Huntsville a short time since, soon married a nice young lady, beat the Huntsvillians out of about \$1,200 cash, and shipped for new fields of labor last Sunday night, taking the girl and money with him.

Some of our young men are rushing around frantically, and indulging "lots" of sweet talk, should remember that the girl who can mend stockings, grease a griddle, and turn two pan-cakes at a time is the kind of female to spice to this time of the year.

It is said that Sallie E. Patterson, of the vicinity of Woodlandville, in this county, niece of Thos. H. Patterson, of Sturgeon, lost her voice on the 10th of last July. Several remedies were tried ineffectually. Lately Mrs. A. S. Hume, of Columbia, met the young lady and recommended ardent spirits. Miss Patterson declined taking the perscription, thinking probably that the remedy was worse than the malady. Last week, however, she concluded as a last resort, to try the remedy. Strange to relate, while in a condition of deep intoxication, she entirely recovered articulation, and now speaks as well as anybody.—*Surgeon Leader.*

It is reported that one of Keytesville's belles will pass over the "gang plank" of matrimony soon. It is not reported as certain who will accompany her, but the knowing ones wink as if they were posted, and we guess they are.

Some weeks ago we mentioned the fact that one W. E. Johnson, an employee of the Saline county bank, had robbed that institution of about \$3,000. Johnson has just been arrested in Kircubright, Scotland, and Mr. J. A. Corbett, the cashier, is on his way across the water to bring him back.

The citizens of Brownsville are making an effort to dam Blackwater river about ten miles below the city. It is thought this can be done so as to make the river navigable from the dam up to the city, and thus result greatly to the benefit of the citizens living along the river in Brownsville.

Charlie W. received a letter written in a feminine hand the first of the week, and while he was intently perusing it he glanced at the signature and was horrified to read, "from your betrothed." The blanks represent the young lady's name, but we will not publish it just at present, as he requests us not to.

A Salisbury woman the other day patted her friend's seven-year-old youngster on the head and said, "I should like to have such a little boy as you are," when he looked up into her face and replied, "Well, I guess you can't. I don't believe God's lost the pattern of me."

George, a little 10-year-old son of Mrs. Fitzpatrick, hung himself at a barn in his mother's place, near Paris, on Tuesday, Nov. 6th. Mr. Henneger, a neighbor, had recently committed suicide by hanging, and the little boy in play was imitating him when the accident occurred.—*Surgeon Leader.*

We do not wish to interfere with any arrangements already made, but we beg to assure a "young gent" in this city that one of the prerogatives of a wife is to put her feet against the small of her husband's back and land him in the middle of the floor these cold mornings. This fire making business is a terrible draw back on marriages.

With a few notable exceptions, the large advertisers of four years ago are the large advertisers of today. Amid the business weeks of the past four years, as a rule, only those who understood the value of printers' ink have safely withstood the storm.—*Philo Press.*

A lady in Madison, Wis., not exactly posted on the word "disfranchise," was told that Mr. Smith was disfranchised, and she wanted to know how long he had "been so." On being informed that he had been so for about four years, she said she didn't see how that could be, for Mrs. Smith had a child only two years old.

"Pills" went to Salisbury last Saturday night and did not get back until Monday morning. For a while he was satisfied to go over Sunday afternoon and come back the same evening, but now he wants to stay over there all day Sunday and part of Monday. How long will it be before he will bid farewell to Keytesville and locate permanently in Salisbury?

A woman about 18, and a girl about 7, were put off of a train at Fayette one day last week. They went up town, stopped at the residence of Jno. Hanson, where the young woman asked to leave the child by the fire until she could attend to some business matters, which was consented to. She then left and has not been heard of. The little girl gives her name as Emma Read, but says she has another name.

One of our exchanges tells of a country editor who pawned his overcoat to get 500 posts to work a job on, did the job for four shillings, waited a year for his pay, and because he wouldn't "take it out of the store," the merchant refused to patronize him, and sat around wondering why some man of enterprise didn't start a paper in that town.—*Ex.*

In the north part of Jasper county there lives a family by the name of Trotter, who are well-to-do farmers. The female head of the family has been married seven times. She is now living with her seventh husband, the other six having died violent deaths. A couple of her husbands were hung during the war, or shortly afterwards, three were killed in bloody affrays, and one was drowned.

Some of those merchants who imagine they are well enough known to be independent of newspapers, will find that no one is so quickly forgotten as he who quits advertising. Trade goes not by friendship in these hard times, but it is a matter of dollars and cents, and he who advertises a bill, his bargain will gather in the few dollars that are about.

There is a young man in this place who is very fond of singing the popular song, "There's a Letter in the Candle," but he changes the chorus so as to read: "Bright spark of hope, shed your beams on me, And send some loving message from Salisbury."

The Paris Mercury of last week contained the following market reports, taken from a copy of that paper dated July 13, 1844: Bacon 23 to 24 cents.

Shoulders 2 to 2 1/2 cents. Sides 3 to 3 1/2 cents. Wheat 45 to 63 cents per bushel, Rye 37 to 40: Oats 23 to 25: Corn 28 to 37: Tobacco 1.50 to 1.80 per cwt, and other things our farmers had to sell in proportion.

A rural rooster "reels off on his ear" thusly: We were sitting in the parlor, The old folks had gone to bed, It was midnight's solemn hour, But 'twas only ten o'clock.

"Do you think it wrong?" she murmured, As we held her little hand, "Wrong? What's wrong? Oh! please excuse me, We, at last, did understand."

Then we kissed the little darling, And we left her better cheer, For we only had a block to walk To get a glass of beer.

The griddle-cakes days have come, When proud Malinda passes Her little platelet back for "more," And sops 'em with molasses. Malinda, proud Malinda Jane, Desist for mercy's sake! Else, piling in those griddle-cakes, You'll get the stomach-ache, And then Malinda, loaded down With griddle-cakes, you'll see That vinda doughnuts ease the soul—How waffle that would be.—*Ex.*

In the Callaway circuit court last week Judge Burkhart passed death sentences on John Shock (col.). Some time last spring Shock had a little negro boy, five years old, placed in his charge to raise. Shock treated the child with great brutality and frequently left bruises and sores on the little fellow, the result of the terrible beatings he would give it. Last summer he took a grape-vine and beat the child over the head and back, crushing his skull and leaving great scars on the child's body, from the effects of which it died three days after. Shock was arrested, tried at Fulton last week and convicted. A motion for a new trial was overruled, and he was sentenced to be hung on Friday, December 27.

A good one is told of one of the grand juries to the effect that he went out Thursday night to look for a couple of horses, supposed to have been stolen. Some time in the night he found a couple of horses in the woods, and, thinking he had found the lost, proceeded to start back to town with them. It turned out that these horses belonged to a couple of colored gentlemen who were near by in the woods hunting. They overtook said grand jurymen, captured him, took their horses, and started to town with their prisoners, intending to turn him over to the authorities for horse stealing. By hard begging, however, said grand jurymen persuaded the colored gentlemen to release him, on promise that he would never do it again. The grand jurymen arrived in town Friday morning a wiser if not a better man. Of course we do not ask the jury now in session to take any notice of this case.

Old English Gardener. Mr. Jno. Watterson, the old English Gardener, from Keytesville, was in town on Thursday last with a fine lot of vegetables. He placed the *Herald* under obligations for a liberal supply. He raises nothing but the very best of vegetables and ought to get him a spot of ground down in this part of the country, for he can grow a market either at Huntsville or Moberly. Mr. Watterson says that a premium was awarded to him at the Moberly fair for the best display of vegetables, but by some mistake it was given to some other person. He left in our possession a certificate from Mr. J. H. Meals to that effect. He says he don't care anything for the money but he wants the honor of beating his competitors.—*Huntsville Herald.*

From all parts of the country reports come of the immense sales and increasing demand for that deservingly popular Sewing machine, The Old Reliable "Standard," the price of which the proprietors wisely reduced to \$20, including all the attachments, and at once secured for them a popularity among the people far beyond that ever attained by any other machine at any price, the consequence of which is, agents are leaving the old high priced machines, and seeking territory for the "Standard." Knowing from experience that with the best goods at the lowest price they can outsell all other machines, where the superior quality and low price is made known. This splendid machine combines all the improvements. Is far ahead of all others in beauty and durability, of work, ease of management, light running and certain of operation, is sensibly made upon principles, with positive working points all steel, and can be safely put down as the very perfection of a serviceable Sewing Machine, in every particular, that will outlast any machine, and at a price far below any other. It is thoroughly warranted for five years. Kept in order free of charge, and sent by part of the country for examination by the customer before payment of the bill. We can predict equally as large a demand for them in this section as in others. Families desiring the best machine manufactured should write direct to the factory. And enterprising persons wishing to seize the chance should apply for so desirable an agency. See advertisement in another part of this paper.

Address Standard Machine Co., Broadway and Clinton Place, New York.

A Remarkable Result. It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy that has given complete satisfaction in severe cases of Lung Diseases. It is true that there are yet thousands of persons who are predisposed to Lung and Throat affections, Consumption, Hemorrhages, Asthma, Scurvy, Croup, settled in the Bronchus, Pneumonia, Whooping Cough &c., who have no personal knowledge of Borbe's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America. 7-14
